BIRD'S NEST

FEEDING YOUR BACKYARD BIRDS

Some advice from the Humane Society.

N. INDIANA BACKYARD BIRDS

What birds might you see at your backyard feeder when you are back home in Indiana?

BIRD FOOD RECIPE

Dark-eyed Juncos are flashy little sparrows that winter in the Northern United States. They'd love this tasty cornbread.

Inside Kruse Farm Supply and Garden Center is a complete one-stop wild bird store with everything you need to attract birds to your own backyard sanctuary. We offer a variety of wild bird seed mixes and black and striped sunflower seeds in 50 and 25 lb. bags, or in bulk. We also carry salted and unsalted peanuts in the shell or cracked corn to feed birds, ducks and geese, or even squirrels and deer.

Winter feeding is a life saver, and feeding year around attracts birds to your backyard for you to view.

We offer a large quantity of reasonably priced bird feeders, bird houses and bird baths. We also carry water heaters, hummingbird feeders, bird-themed gifts, and a variety of books for information, or ask our knowledgeable staff any wild bird questions you may have. If you don't see what you want, just ask. We can probably get it for you.
